Danny Yeung, CEO and Co-Founder of Prenetics and IM8, commented,

"This is a defining moment for Prenetics. In just 11 months, IM8 has achieved \$100 million in annual recurring revenue — the fastest growth ever recorded in the supplements industry within 12 months of launch— positioning us on a clear path toward becoming a multi-billion-dollar global brand. It's clear that IM8 has huge global potential, evidenced already by our extraordinary traction across multiple markets, as we pursue our share of the \$704 billion global supplements market expected by 2030¹.

We're particularly honored to have the backing of a distinguished group of new and existing strategic investors who share our confidence in the transformative potential of our dual-engine strategy. Their continued investment and expertise will be invaluable as we accelerate IM8's global expansion while advancing our disciplined Bitcoin treasury initiatives, including the potential to accelerate our daily 1 BTC accumulation strategy.

To maximize shareholder value and focus our efforts, we have begun a strategic review of our other business units within Prenetics with the intention to divest them, which we believe will be accretive to shareholders. This strategic focus will allow us to dedicate all of our resources and expertise to the massive IM8 opportunity while strategically accumulating Bitcoin moving forward.

Looking ahead, our long-term ambition is bold yet realistic: to reach \$1 billion in annual revenue alongside \$1 billion in Bitcoin holdings within the next five years. For more insights into our strategic vision, I encourage everyone to read our comprehensive manifesto at www.Prenetics.com/manifesto."

IM8 Achieves \$100M ARR in Record Time

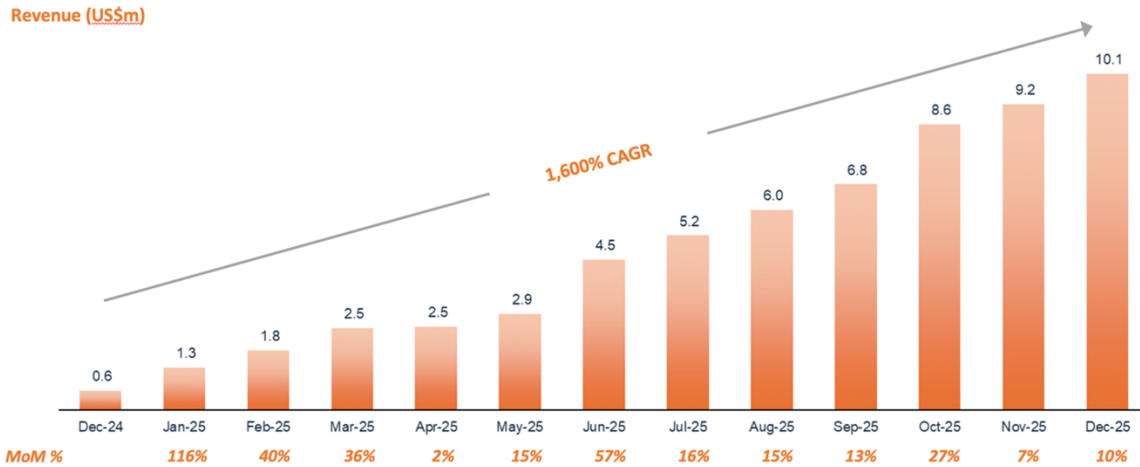

The Fastest Growth Ever Recorded in the Supplements Industry Within 12 Months of Launch - Outpacing AI and Consumer Brands

IM8 Record-Breaking Growth to \$100M+ ARR in Just 11 Months

Unprecedented ramp to \$10M Monthly Revenue by December 2025 and \$60M+ in Full Year 2025 Revenue

Note: Revenues from Dec-24 to Oct-25 based on non-IFRS contracted sales basis, with Nov and Dec-25 being management forecast.

Kyle Wool, CEO of Dominari Securities said, "The investor response to this offering is a testament to the market's confidence in Prenetics' dual-engine growth strategy. We are proud to have partnered with Prenetics on this transaction."

The Company believes its core business is building momentum, anchored by its rapidly expanding supplement brand, IM8, which has experienced significant growth — reaching \$100 million in annual recurring revenue ("ARR") in just 11 months since launch.

IM8's remarkable growth is further evidenced by strong operational metrics: the brand has delivered over 12 million servings to more than 420,000 customer purchases across 31 countries since launch in December 2024. The recent launch of Daily Ultimate Longevity has driven significant momentum, with average order value increasing from \$110 to \$145, reflecting robust consumer demand for IM8's premium product offerings.

Financial Outlook

For October 2025, IM8 is expected to generate more than \$8.6 million in monthly revenue, representing an ARR run rate of approximately \$103 million. Approximately 80% of all new orders came from subscriptions on IM8's website, underscoring the brand's strong recurring base and revenue predictability. The Company is also providing for the first time guidance for IM8 for the full year 2026, and anticipates delivering revenues between \$160 million and \$200 million.

Following the closing of the offering, Prenetics will hold approximately \$100 million in cash and approximately 275 BTC, valued at \$31 million as of Oct 27, 2025 in Bitcoin holdings — \$131 million in total liquidity — further strengthening its balance sheet and financial flexibility. This foundation combined with consistent Bitcoin accumulation by purchasing 1 BTC every single day commencing August 1, 2025 and the explosive growth of IM8, positions Prenetics for accelerated expansion and long-term value creation for shareholders.
